

JASTI SID-II's Technical advantage report No.19

JASTI has completed SID-II's in 2007 and continued to keep high reliability such as Repeatability, Reproducibility and durability.

The followed three parts are own development and exclusive marketing.

Advantage

1. Pelvic structure

Pelvic mold has designed as built-in Zipper.

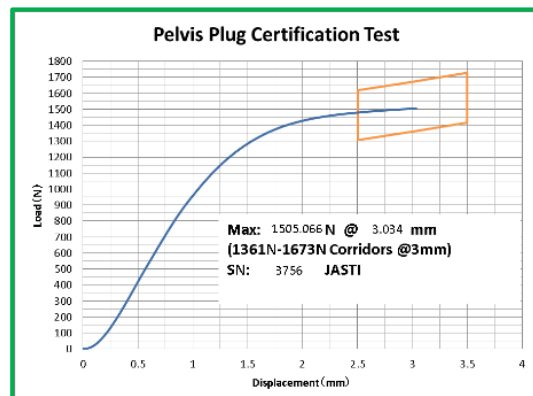

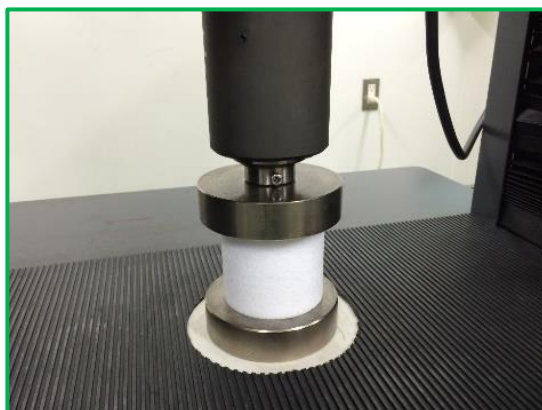

Side Impact test dummy should slide over the seat at the impact time.

JASTI built-in Zipper Pelvis has no outside friction material. Such as tape.

2. Pelvis Plug

JASTI has developed Pelvis plug with one of major manufacture to get the Compression ratio, weight, etc. exclusively after many confirmation tests.

3. Chest transducer

JASTI prepared our own drawings to meet the required specification with specialize sensor manufacture for many years.
